

SQL Instructions

Get All Users:

```
use EventManagementSystem;
SELECT *
FROM Users;
```

Add Admin User:

JS:

```
const bcrypt = require('bcrypt');

(async () => {
  const plainPassword = 'admin123';
  const hashedPassword = await bcrypt.hash(plainPassword, 10);
  console.log(hashedPassword);
})();
```

SQL:

```
INSERT INTO Users (username, email, password, isAdmin)
VALUES (
  'Test_admin1',
  'admin_test1@example.com',
  '$2b$10$ZVlT4iMks.o3tnfq0I1cde13/pxAxZfyK8qLD065MnXZvEkVQuly2',
  TRUE
);
```
